PRO RIFLE TRIPOD CLAMP MOUNT

The Pro Tripod Rifle Clamp transforms any shooting setup into a stable shooting position. Attach any firearm swiftly, no tools or stock modifications needed. Its light, portable design makes it perfect for Western and predator hunters who value speed, flexibility, and hair-splitting accuracy in the field.

Mounting Instructions

1. For direct mounting, use the Arca-Swiss Mounting Plate to install the Pro Rifle Clamp to your tripod.
2. If you don't have an Arca-Swiss compatible tripod, use the 3/8"-16 Mounting Thread, located on the bottom of the Pro Rifle Clamp to install onto your tripod.
3. Once you have the mount installed on your tripod, utilize the Spring-Loaded Adjustment Knob to clamp either your guns foregrip or stock, making sure to avoid clamping your barrel, into the rest until it's snug.

Note: The included 2.5mm hex wrench can be utilized to remove the stops on the bottom of the Arca-Swiss Mounting Plate if desired.

Note: The included 3mm and 4mm hex wrenches are only required for disassembly should a part need to be replaced.
